

# KANAV AGARWAL

kanava3@illinois.edu | 424-381-2620 | Urbana-Champaign, IL

## SUMMARY

First-year Computer Science student at the University of Illinois Urbana-Champaign with junior standing (CS STARS Scholar). Research experience in AI, machine learning, and cybersecurity, with a strong foundation in programming and analytical problem-solving. Seeking a software engineering internship.

## WORK EXPERIENCE

### Research Intern, ASU Science and Engineering Experience (SCENE)

Sep 2025 – Jul 2026

- Conducted research on multivariate time-series analysis using Symbolic Aggregate Approximation (SAX) and change-point detection methods.
- Presented SAX-based findings at the Arizona Science & Engineering Fair.
- Developed methods for LLM hallucination detection by analyzing shifts in token probability distributions and generated outputs.

### Cybersecurity Research Intern, ASU SEFCOM Lab

May 2025 – Jul 2025

- Analyzed scam and phishing e-commerce websites using Python to identify malicious patterns and indicators of compromise; used Telegram to analyze the scam-as-a-service ecosystem.
- Built data extraction and preprocessing scripts to clean and structure raw website data for analysis.
- Documented research methodologies and findings to support reproducibility and technical review.

### Founder & Developer, PrepMate – AI-Powered SAT Tutor

Jan 2025 – Jan 2026

- Designed and developed an AI-driven tutoring system that adapts problem difficulty and feedback based on user responses.
- Translated user and system requirements into backend logic and web-based interfaces using Python, HTML, CSS, and JavaScript.
- Iteratively tested and refined system behavior to improve explanation quality and user experience.

## EDUCATION

### University of Illinois Urbana-Champaign

Expected Graduation – Dec 2028

Grainger College of Engineering – Siebel School of Computing and Data Science

- BS in Computer Science (Freshman with Junior standing)
- Transfer credits: Computer Organization & Assembly Language; OOP & Data Structure

### University High School – Tolleson, AZ

May 2026

- GPA: 3.98 (Unweighted), 4.55 (Weighted)
- Key Coursework: AP Computer Science, AP Calculus BC, AP Physics C, AP Seminar & Research

### West-MEC Central Campus – Glendale, AZ

May 2026

- 900-hour Coding program
- Relevant Skills: HTML, CSS, JavaScript, Node, React, SQL, MongoDB, PHP, Linux, GitHub, VS Code

## KEY SKILLS

- Technical skills:** Python, Java, C, C++, JavaScript, HTML5, CSS3, Git/GitHub, Flask, Scikit-learn, NumPy, Matplotlib
- Certifications:** IT Specialist: HTML and CSS; IT Specialist: HTML 5; IT Specialist: JavaScript
- Awards/Activities:** National Merit Finalist; FBLA State Champion (2025) – Coding and Programming; FBLA Regional Champion (2026) – Coding & Programming, Data Science & AI
